Alcorn McBride Joins Techni-Lux 20th Anniversary Open House

Alcorn McBride was pleased to join the well-wishers congratulating Orlando-based Techni-Lux, Inc. on its 20th anniversary. A multi-faceted lighting manufacturer and distribution company, Techni-Lux includes Alcorn McBride products in its product lines. The company's April 21st open house was attended by some 200 guests who enjoyed a catered BBQ luncheon and a mini trade show where Alcorn McBride joined 25 other vendors in exhibiting their equipment.

"We were excited to be part of Techni-Lux's 20th anniversary celebrations," says Alcorn McBride Sales Manager Larry Howard. "The open house offered a full day of festivities, information sharing and a really good group of people. In addition to the equipment exhibits, Techni-Lux scheduled training sessions with their technical department plus panel discussions with industry leaders. I was on the panel addressing '21st Century Art & Technologies Integration.'"

Alcorn McBride was also represented by Business Development Manager Loren Barrows and COO Jeremy Scheinberg. During the course of the event Techni-Lux raffled off several door prizes, including an Apple iPad 2 donated by Alcorn McBride and won by Eric Soto from Ride and Show at Universal Orlando.

Techni-Lux was founded on the premise of providing lighting expertise along with a wide range of quality products at all levels — its own Techni-Lux brand and more than 50 other well-known brands. Its service and attention, friendly and knowledgeable staff, technical support, large inventory selection and competitive pricing have earned the company many

satisfied customers who echo Alcorn McBride's wishes for many more successful years ahead.
