

# LED Helios 7B

**double-battery solution with  
Lithium-Ion batteries**

**about 5 - 6 hrs battery runtime**

**7 x 15W Osram® RGBW LEDs**

**8° beam angle**

**individual LED control**

The Helios 7B creates a fantastic beam effect. Furthermore you are able to control every single LED of the fixture - in every colour you like. Due to the compact design the Helios 7B is a speed beast with perfect movement control when it comes to smooth tasks. Its high class Osram® LEDs and the engineered lenses make the Helios 7B a perfect tool for professional application. Thanks to the double-battery solution, the Helios 7B beams are supplied with power in a redundant arrangement, which makes it possible to remove and change one of the two batteries at any time. The charging is possible with separate available Makita quick charger.

## Light Source

- 7 x 15W Class RGBW LED
- Rated lumen output: 2.400 lm

...

## Power supply

Voltage	100~240V / 50~60Hz
Power consumption	~ 135W
Battery	Yes

## Light source

LM type	LED Xin1
Color spectrum	RGBW
Power	105W
Number / Power	7x 15W

## Optics

Beam angle	8°
Zoom	No
Focus	No

## Connections

Current in	4-Pin 12V
XLR in/out	3pol

## Functions

Pan	540°
Tilt	270°

## Controlling

Sound-to-Light	No
Automatic	No
Master-Slave	Yes
DMX512	Yes
Artnet	No
RDM	No
DMX channel]	1/11/16/20/60

## Hardware

IP	IP20
Suitability	Indoor
Dimensions (L/B/H)	180x 100x 100 mm
Weight	1.5 kg
