PD-PC3 8CH LIGHT SWITCH PANEL
User Manual

INTRODUCTION

Congratulations on purchasing PD-PC3 8CH Light SWITCH PANEL power system. Prior to use, we suggest that you carefully read all of the instructions.

FEATURES

PD - LIGHT SWITCH PANEL Control	25 foot Control Cable	PC3 power pack
8 channels control	8 channel outputs	8 latch switches
1 unswitched AC channel	8 flash momentary buttons	

CAUTIONS

1. The maximum output for the PC3 power pack is 1500 watts.
2. When using multiple power packs, make sure that each pack is plugged into a separate outlet with it's own 15 amp line.
3. Never use this unit in a wet and/or dusty environment or in the open air. It is for dry indoor use only.
4. This device falls under protection-class I. Therefore it is not allowed to connect the plug to another socket/outlet that is not a protection-class I outlet.
5. The controller and pack are designed to work together only. Do not attempt to connect or control other devices using these devices.
6. Unit must be plugged into an outlet with a ground prong. The grounding must be safe and have a resistance of not more than 0.5O.
7. Turn unit off when not in use.
