### REVOLUTION<sup>®</sup> acoustics

Canadian company Revolution Acoustics is changing and simplifying how we listened to reproduced sound, at last delivering what all installations are supposed to have: even sound pressure everywhere and perfect frequency response everywhere. As simple as that sounds, it is a Revolution as no speaker technology has been able to deliver this until now. Topping it off, the Revolution SSP6 Multiducer transducer is in the new form factor - Invisible.

### SENNHEISER

The acknowledged world leader in microphone technology, RF-wireless and infrared sound transmission, headphone transducer technology, and in the development of active noise-cancellation.

Soundcraft designs and manufactures professional audio mixing consoles for Live Sound, Theatre, Broadcast, Recording and Post-Production applications.

Tannoy Ltd. is a British manufacturer of loudspeakers and PA systems. The company was founded as Tulsemere Manufacturing Company in London in 1926.

### **whirlwind**
